<p><i>Vision/Mission: The platform of this committee shall be the promotion and heightened visibility of public health nursing. The NEC shall provide public health nursing guidance and direction in Kentucky in collaboration with state and local health department nurse leaders, APRNs, clinical and community health nurses and community stakeholders. This guidance shall include policies and procedures, the distribution of best practices, networking opportunities, and links to other nursing resources.</i></p>			
<p><i>Importance: A strong partnership among the Department for Public Health (DPH) Nursing Office with state and local health departments is critical to the successful delivery of the “Ten Essential Public Health Services” and public health nursing services to Kentucky communities.</i></p>			
<p><i>Focus: The focus of the NEC shall address areas of importance as identified by the Department for Public Health Commissioner, the Deputy Commissioner, the DPH Nursing Office, and/or state and local health department nurse leadership and public health stakeholders including federal partners. The NEC will offer subject matter expertise as requested.</i></p>			
<p><i>Strategies: Incorporate nursing process approaches with a.) Communication between DPH program staff, LHD directors and public health nurses; b.) Assessment and collection of data, tools, and surveys for data driven decisions from various resources (Public Health foundation, Quad council, program specific resources, CDC etc.); c.) Committee meetings to develop, implement and evaluate policies and processes which support quality public health nursing and positive patient outcomes.</i></p>			
<p><i>Schedule: Monthly meetings until June 2019 and thereafter as determined by the Director of Nursing and the NEC membership.</i></p>			
<p><i>Deliverables:</i></p> <ol style="list-style-type: none"> <i>1) Review and approve annual and emergency Core Clinical Service Guideline (CCSG) revisions;</i> <i>2) Provide feedback regarding the development and implementation of the public health electronic health record system;</i> <i>3) Serve in an advisory capacity in the development of a “PH 101” training for all new public health nurses (on-line training modules);</i> <i>4) Develop a new public health Nurse Leader orientation with face-to-face training opportunities with a mentorship component;</i> <i>5) Enhance communication venues with LHD nurses to include surveys, Public Health Nursing webinar updates, email communication;</i> <i>6) Complete and approve public health nurse initial orientation and annual training; and</i> 			

7) Convene committee and workgroup meetings as needed

Various project timelines will be delineated as project goals and deliverables are identified.

Measures:

- 1) Review CCSG evaluation results as submitted through survey monkey responses (including narrative responses) and six-month survey;**
- 2) On-going assurance of alignment with the CCSG QI project AIM statement to meet minimum program requirements;**
- 3) Monitor number of participants of PHN webinars; provide NEC report at each PHN webinars; and**
- 4) Needs assessment completed every five years to review and enhance the role and deliverables of the NEC; the FY '18 NEC will develop, disseminate, collect and evaluate this assessment responses.**

Resources needed:

No budget necessary
